According to word coming to The Indianapolis Recorder from reliable sources a new form of "racketeering" is being attempted in Indianapolis.

Present unemployment conditions have created a desperate situation of part of owners of apartments in districts inhabited by both colored and whites. In previous years when applications have been made by colored to rent these apartments they were not received. Some of the apartment owners have been quoted as saying: Before I would rent to colored I'd let it stand empty."

During the last few years whites have moved to new and modern apartments. Economic conditions have added to the vacancies.

Now, according to the data we have on hand these owners are opening doors of their outof-date apartments to Negroes and in many instances greatly

increasing the rental charges. The Recorder wishes to advise its readers that up-to-date apartments are available at moderate prices. Investigate carefully before you pay \$30 or \$35 for the same apartments have been rented to whites for \$22.50 and \$25.00.
